

Glen Allen Members,

As you know, Glen Allen Youth Athletic Association is a volunteer organization dedicated to providing the youth in our community a safe and enjoyable environment to develop sportsmanship, character and self-confidence through the façade of basketball, baseball and softball. GAYAA relies heavily on the strong spirit and energy of our volunteers, which includes our volunteer Board of Directors. We are blessed by having a uniquely energetic and idea driven membership, and I would encourage anyone interested in putting that passion and those ideas to work for our kids, to considering joining our Board!

Importantly, I know there are folks that would be interested in serving, but are not sure how to be considered. That is the purpose of my email, as our annual elections will be taking place at our annual meeting in early September – details of how that meeting will look are still being worked out with distancing and PHASE III (or hopefully PHASE IV) protocols, etc. Nonetheless, we are always looking for new experiences and new ideas to mesh with the thoughts and experiences of those that have served in prior years to move our Association forward. We are working to formalize an initial ballot to distribute to the membership over the next couple weeks, and I wanted to ensure anyone that had an interest in being considered for a position was able to inquire.

If you have an interest in serving, please reach out to me at [president@glenallensports.com](mailto:president@glenallensports.com), and share your interest. We encourage families that represent all of our sports to inquire, so don't feel like your contribution would not be valuable if you "only" participate in one of the sports we offer. Please don't feel like you haven't been around long enough, as we are always looking to hear the input and listen the ideas of our newest and youngest families as you are our future!

Thank you for all you do for the kids of our Association, and I look forward to hearing from you as we plan for our next fiscal year.
